### **Scallion inks pact with Genovate of Singapore**

The Chennai-based Scallion Technologies Pvt. Ltd has entered into an agreement with the Singapore-based Genovate Solutions Pvt. Ltd (Genovate) to provide software training and application development in India. Genovate plans to launch 20 training centres in a year and set up two software application development centres. The company targets revenues of Singapore \$1.5 million (Rs 3.75 crore) from training and Singapore \$2 million (Rs 5 crore) from application development in a year. The training centres would be on a franchise basis and the company plans to invest Singapore \$2-3 million (Rs 5-7.5 crore) in the next 18 months, the bulk of which would go into the development centres, said company officials at a press conference.
