AsiaSoft partners with Genovate Solutions

Genovate Solutions, a Singaporean software company, last week signed an agreement with AsiaSoft to market the SAP Solutions Academies and to support and develop the internationally recognised Human Resource Product – eZHR •eZpayk developed by Genovate, both in Sri Lanka and the Middle East.

SAP is one of the leading Enterprise Resource Planning (ERP) solutions and enjoys number one position in the global market. It established the SAP Solution Academy Program to further enhance cooperation between SAP, its customers and alliance partners. Customers and partners' consultants are trained to facilitate and expedite high quality R/3 system implementations. These high quality external consultants, are required to sit a certification exam at the conclusion of the program. The certification is global, and identifies a marketplace of professionals with a validated skill set. Today, Genovate is an authorised exclusive training partner for the Sap Academies in Kuala Lumpur, Singapore and Mumbai.

"The eZHR•eZPay Suite is a cutting-edge Human Resource Management System and a Payroll sys-

tem that is geared towards the needs of Small-to-Medium Enterprises (SMEs). In addition to offering unparalleled performance, interoperability, flexibility, scalability, and platform-independence, the eZHR•eZPay Suite is also highly affordable," said the CEO of Genovate Anton Ravindran.

The eZHR•eZPay Suite is a comprehensive Web-based application developed in pure Java and XML to allow for rapid deployment at a single location on the company's Intranet. This centralised system will provide organisation-wide access to self-service functions for employees and managers, to streamline their workflow and empower their establishment. The system com-

prises of the eZHR and eZPay applications that encompasses several fundamental models that helps the organisation manage, coordinate, and streamline all the human resources activities.

AsiaSoft is one of the leading advanced technology consulting companies in Sri Lanka providing software development, business consultancy and e-security assurance. Being an ISO 9001 certified company with Branch offices in Dubai and the USA, AsiaSoft has secured many offshore projects, and are presently working on a Norwegian project to develop and market mobile software applications. AsiaSoft is also a partner of Sathyam Computer Services.
